Education

Ph.D. Computer Science The Univ. of Maryland

M.S. in Computer Science Penn State University

MAT, Math Ed Harvard Univ.

BS, Math Ed, E. Stroudsburg Univ.

Professional Experience

Professor (7/90 to present), Department of Computer Science and Engineering, Michigan State University; Acting Chair (Jan 2000 to Aug 2001 and Sep 2007); Associate Chair (Aug 2005 to June 2009).

Partner and Director of Information Technology (8/2000 to 12/2004) ERL,LLC, a company doing seating design, ergonomics, and biomechanic evaluation, primarily for the auto industry. This business relationship was terminated as of 2 Jan 2005.

Sabbatical 2/97 to 8/97 University of Washington: Computer Sci. Dept. and Electrical Eng. Dept., Seattle, WA

Sabbatical 6/88 to 6/89, Texas Instruments, Dallas, TX

Associate Professor (9/82 to 6/90), Department of Computer Science, Michigan State University

Associate Professor (9/79 to 5/82), The American Univ., Washington, DC

Senior Research Scientist, full and part time (73 to 82), LNK CORP., Silver Spring, MD

Math Instructor (6/68 to 6/70) Virginia Union Univ., Richmond, VA

Expertise and Interests

Professional interests and expertise include computer vision, artificial intelligence, computer graphics, data structures and algorithms. Recent research work has been focused in two areas: (1) human face modeling related to identification, and (2) augmented reality and tele-presence. Previous research at the university includes work on the development of two image analysis systems that are in use today, one for the analysis of images of plant roots (RIPL) and one for making measurements of the human body in the driver's seat of an automobile (ERL). Current projects include a commercial prototype to verify person identity using a 3D scanner and stored face model, and methods to produce real time face-to-face video telecommunication by blending video from two cameras in an HMD.

Selected Projects

The following projects are selected as examples the breadth of experience and background: more information can be obtained from my web pages or from the listed publications.

1. Modeling and Recognizing Human Faces, for telecommunication, man-machine interaction, and identification: 3DID and face2face.
2. Analysis and display of 3D volume images for materials and medical research.
3. Creation of a virtual animal organs for veterinary student education.
4. Measuring Human Body Pose in an Automobile for research on comfort and safety.
5. Extraction of Root Measurements from Underground Images for research on plants and soil.
6. Determining Pose of 3D Objects with Curved Surfaces for general object recognition and automation.

Work in industry

Work with ERL,LLC involved doing seating design, ergonomics, and biomechanic evaluation, primarily for the auto industry. ERL,LLC has proprietary human body models and modeling software that is used early in the auto design process to optimize comfort, task control, and safety. My responsibilities, in addition to participating in setting overall company direction, included direction of software development, graphics and algorithm development and improvement of the convergence of the optimization module.

Previous work with LNK CORP included development of algorithms and software for image analysis, computer cartography, and database software for indexing and searching text. In the cartographic work, tasks spanned the gamut from extracting map features from photographs to storing and indexing map features. In working with the document data bases, we were responsible for maintaining an inverted file system for the National Institute on Drug Abuse which was the forerunner of STAIRS (IBM). While working with LNK Corporation, I was involved in all aspects of development of medium size production software systems from winning contract bids, through design and implementation and to eventual installation and maintenance.

Programming and Systems

Extensive programming in the past was done in FORTRAN and in COMMON LISP. Most recent programming has been done in C++ and OpenGL. Recent environments used are UNIX and some PC/Windows and MATLAB on PCs. Expertise in teaching youth via Scratch is growing.

Book

L. Shapiro and G. Stockman, **Computer Vision**, Prentice-Hall Inc. (January 2001) ISBN 0-13-030796-3, 580 pages; see web pages for samples. (Russian translation by Boguslavsky and Sokolovs, BKL Publishers, ISBN 5-94774-384-1 (2006). Chinese translation, Pearson Education Asia Limited and China Machine Press, ISBN 7-111-15972-1 (2005).)

Book Chapters

1. G. Stockman, *Object Representation for Recognition by Alignment*, in **3D Object Representations in Computer Vision**, J. Ponce and M. Herbert(eds), Springer-Verlag(1995). Also in NSF/ARPA Workshop on 3D Object Representations in Computer Vision, New York, NY (Dec 5-7,1994),

Honors

- Harvard Prize Award Fellow, 1966
- Computer Science Fellowship, Penn State University, 1967
- Delivered the graduation speech at the Graduate Degree ceremony at East Stroudsburg University, Dec. 14, 2007.
- MSU Curricular Service-Learning and Civic Engagement Award, with Teresa Vandersloot and Adam Pitcher (April 2008), for work with ITEC Lansing.
- Withrow Service Award from the College of Engineering, MSU Spring 2009.

Professional Activities and Service

Memberships/Service in Professional Organizations

- A. Goshtasby, G. Stockman, and K. Rohr, *Workshop: 2-D and 3-D Image Registration*, (June 27, 2004) IEEE Int. Conf. on CVPR, in Washington, D.C.
- ABET/CAC Program Evaluator 2003, 2005, 2006, 2008, 2009
- Member American Society for Engineering Education (ASEE)
- Senior Member, IEEE and member of PAMI Technical Committee
- Distinguished IEEE Lecturer 1990-1993
- Intelligent Systems Focus Group (former Chair), IEEE/ACM Curriculum 2001

Reviewing and Editorial Work

- Review of tenure or promotion cases: University of South Florida (2), Penn State University(2) , University of Rochester (1), Carnegie Mellon (1), Purdue (1), Nebraska (1), Wright State (2), Temple University (1).
- Associate Editor, Pattern Recognition, 1988-present
- Editor for Special Issue on CAD-based CV for journal CVIU 1997.
- Editor for Special Issue on CV Education for journal IJAIPR 1997.
- Reviewer for IEEE Trans. on Pattern Analysis and Machine Intelligence

- Reviewer for IEEE Trans. on Systems, Man, and Cybernetics
- Reviewer for Computer Vision and Image Understanding
- occasional reviewer for other journals
- Academic Program Review (2009): Ferris State U. BS in Comp. and Info. Tech. Sys.
- Academic Program Review (2008): U. Michigan Concentration in Informatics
- Academic Program Review (2008): U. Michigan Dearborn, PhD in Information
- Academic Program Review (2007): Oakland U., PhD Program in CS and Informatics
- Academic Program Review (2005): Oakland U., BS Program in IT Systems Engineering
- External Reviewer of PhD dissertation of Muhamman Ali Chaudhry of National University of Science and Technology, Pakistan (2007)

Organizational Service to Conferences

- WACV (Workshop on Applications of Computer Vision) 2009 Program Committee member
- WACV (Workshop on Applications of Computer Vision) 2008 organizer, with Suchi Bhandarkar and Wesley Snyder, and reviewer.
- Program Committee for IASTED Int. Conf., Marabella, SP (Sep 2004)
- Program Committee for IASTED Int. Conf., Benidorm, SP (Sep 2005)
- Program Committee for 2004 SNPD Conf., Beijing, China
- Program Committee for 2002 Int. Conf. on Pattern Recognition (ICPR)
- General Chair for ASEE North Central Section Conference 2000.
- Program committee: Indian Comp. Vision, Graphics, and Image Proc. Conf., Oct 2000
- Co-Organizer of Workshop at international CVPR conf., Hilton Head, June 2000
- Program committee member for IEEE/RSJ IROS'97 Conference.
- Organized Panel for CVPR 97: Computer Vision Education
- Program committee member for CVPR 1994,96,98,99
- Organized Panel for CVPR 94: The Role of Computer Vision in Multimedia
- Organized Panel for CVPR 96: Computer Vision Education
- Organized Workshop for CVPR 97: Computer Vision Education
- Reviewer for IEEE Conf. on Computer Vision and Pattern Recognition (CVPR)
- Session organizer for SPIE Spring Conference 1991
- Panelist for CAD-based Computer Vision Workshop, Feb 1994
- Reviewer for International Joint Conf. on Pattern Recognition (ICPR)
- Session chair for ICPR, SMC, and AI conferences

- Gave tutorial session at ICPR in Miami (1980)
- Panelist at U.S.-France Joint Seminar on Inspection (Aug 1983)
- Panelist in Expert Systems tutorial at WMU (Dec 1985)
- Organized session on 3D vision at Oakland Univ. AI Conf. (Apr 1986)
- Participant and session chair in NATO workshop (Aug 1987)
- Session Chair for NSF Workshop on Range Data (Mar 1988)
- Local arrangements committee for International Joint Conf. on Artificial Intelligence, Detroit (Aug 1989)
- Program CoChair for IEEE Workshop on Interpretation of 3D Scenes, Austin, TX (Nov 1989)

Service to National Science Foundation

- Reviewer of proposals for Information, Robotics, and Intelligent Systems program; and occasionally for other programs
- Panelist for CER Program initial proposal evaluation
- Panelist for SBIR proposal evaluation
- Thrice a site visitor for evaluation of infra structure programs

Invited talks and Seminars

- Invited talk on 3D face recognition presented at the International Conf. on Machine Vision, (27-28 Dec 2007) Islamabad, Pakistan.
- Invited talk on 3D face recognition presented at Grand Valley State University (Oct 2007).
- Half day demonstration of the 3DID Face Verification System, with Dirk Colbry and Rayshawn Holbrook at IEEE CVPR (June 2007) Minneapolis, MN.

Invited talks on Artificial Intelligence or Computer Vision topics presented at Universities of Washington, Virginia, West Va., Connecticut, Tennessee, Maryland, Kentucky, New Hampshire, Central Michigan, U. Texas at Arlington, Univ. of Massachusetts, Univ. of South Florida, Wayne State Univ., RPI, VPI, Louisville, Laval, Texas Instruments, Dallas, Calvin College, Michigan Tech., South Florida, Notre Dame, and Howard

Grand Valley, Michigan (Sep 2007); University Cheikh Anta Diop of Dakar, Senegal (2006); Albion College, Michigan (Nov. 2004); Central Michigan Univ. (April 2004, Feb 2006); Swarthmore College, (April 2003); Oakland Univ, Michigan, (Jan. 2003); Tsing-Hua Univ. and Nation Taiwan Normal Univ., Taiwan (Dec 1990); National Univ. of Science and Technology, Islamabad, PK (Jan 1995); Advanced School for Computing and Imaging, Netherlands (May 1995); ECCR, Munich, Germany (May 1995); Fudan Univ and JioTong Univ, Shanghai, China (Dec 1995); Institute for Intelligent Machines, Hefei, China (Dec 1995); TsingHua Univ, and Northern JioTong Univ., Beijing, China (Jan 1996); National Taiwan Normal Univ. (Dec. 1990)

ITI, Ann Arbor (Feb 1985), Texas Instruments, Dallas, TX (Jan 1988), Michigan Library Assoc. (Mar 1988), U.S. Army Corps of Engineers, (Apr 1988), MSU College of Education (Dec 1988), North Texas A.I. Assoc. (Jun 1989)

Service to Michigan Institutions and Industry

Taught 2 AI courses at Lear Siegler in Grand Rapids (1983)
 Advice to General Motors Educational Programs (1984)
 Judge for Mid-Michigan Youth Talent Fair (twice)
 Taught 2 AI courses at General Motors in Warren (1984-85)
 Presentation of MSU facilities to MERA Workshop in Novi (Apr 1987)
 Reviewed proposals for Mich. Research Fund (1987)
 Advice to U.S. Army Corps of Engineers, Detroit (Apr 1988)
 Consulting to CPS Dept. Central Michigan University (Apr 1989, Feb 2006)
 Consulting to Research Technology Institute of Western, MI (Dec 1989)
 Consulting to law firm regarding patents in machine vision (Aug 1996)
 Partner and developer of ERL,LLC (Summer 2000 Dec. 2004)
 Reviewed academic program proposals from Oakland Univ. and Western Mich.
 Science Day at Woodcreek Elementary, Lansing (April 2004,2005,2006,2007).
 Vice President of the Board of ITEC, Lansing (November, 2007).
 Member of Lansing Area IT Council and member of its Education Committee (2007). President
 of ITEC Lansing Board (Nov. 2008 to present)
 Taught geometry to the Woodcreek math in May-June 2008.
 Taught Problem Solving with MATLAB at Pattengill in fall 2008.
 Taught CS-Unplugged in April at Black Child and Family Institute.
 Taught CS concepts and Scratch programming at Impression 5 Camps in summer 2009.
 Taught Scratch to Shabazz 6th graders at St Stephen's church in fall 2009.

PhD Theses Directed

A. Goshtasby	PhD(1983)	A Symbolically-Assisted Approach to Digital Image Registration with Application in Computer Vision **co-directed research with Carl Page, now Professor at Wright State Univ.
G. Hu	PhD(1988)	3D Scene Representation using Structured Light, now Professor and past Chair at Central Michigan Univ.
S.W. Chen	PhD(1989)	3D Recognition and Pose Detection using Object Wings, now Professor at National Taiwan Normal Univ., Taipei
D. Ra	PhD(1989)	On Interleaving Syntax and Semantics in Parsing, now Associate Professor at Yongsei Univ., Soule
J. Miller	PhD(1990)	Computer Aided Process Planning: Task Representation and Sequencing, now Senior Researcher at Proctor and Gamble, Cincinnati
L. Reibling	PhD(1992)	A Neural Network Architecture for Path Planning, now Associate Professor at Azusa Pacific Univ., CA.
G. Lee	PhD(1992)	Scene Representation from fused Range and Intensity Images, now Professor at National Taiwan Normal Univ., Taipei
S. Walsh	PhD(1992)	Indoor Robot Navigation using a Symbolic Landmark Map, now with Booze-Hamilton Consultants
Q. Huang	PhD(1994)	Hierarchical Token Grouping in Knowledge-based Tubular Object Extraction, now a Patent Lawyer
J.L. Chen	PhD(1996)	On Recognizing and Tracking Curved 3D Objects from 2D Images, now Senior Researcher with R2 Technology,

		Inc., CA
V. Bakic	PhD(2000)	An Interface for Human-Computer Interaction Based on Face Feature Tracking in 2D, Now Sr. Software Engineer with Bio-Imaging Research, Inc., Chicago
P. Albee	PhD(2004)	Analysis and Visualization of Volumetric Data Sets, now Assistant Professor at Central Michigan University.
D. Colbry	PhD(2006)	Human Face Verification by Robust 3D Surface Alignment, now Research Associate with the HPPC at MSU.
S. Minut	PhD(2006)	Interpolation Snakes with Shape Priors for Border Detection in Noisy Images.
M. Figueroa-Villanueva	PhD(2010)	(Expected 2010) Face-to-face mobile communication

Undergraduates advised in research (recent)

- Jermil Saddler, CpE, 2005 summer and AY
- Jayson Payne, CpE, 2005 summer
- Rayshawn Holbrook, CSE, McNair/SROP Program, summers of 2006 and 2007
- Mark Schall, CpE, summer of 2007 Justin McCormack, CSE on NASA robotics project, Capstone work Spring 2006
- James Pita, CSE and Tim Wall, CSE on NASA robotics project, Capstone work in ECE 480, Spring 2007

Courses Taught

- Intro to Engineering Design (EGR 100), co developer on committee of 8 persons; led 2 class hours Spring 08 and 4 in Fall 08.
- Intro. to Technical Problem Solving (CSE 131), 2006
- Informatics (developed) 2 times, (CSE 240/201) 2002-3
- Technology Base of Information Systems (developed); 1 time, (CSE 491) 2001
- Mathematical Programming in C++ (developed); 3 times (CSE 891)
- Media Processing and Multimedia (developed); 1 time (CSE 472)
- Intro to Computer Graphics; 2 times; used OpenGL, OpenInventor, X-Motif (CSE 472)
- Microprocessors, 1 time
- Database Systems, 2 times
- Intro to computing I; 6 times; used Fortran, PL/1, Pascal (CSE 251)
- Intro to computing II; 8 times; used Pascal (CSE 252)
- algs. & data struct (grad immigration); developed and taught 2 times (CSE 491)
- Intro to artificial intelligence (grad); 7 times; used Prolog and LISP (CSE 841)

- artificial intel. projects (grad); 4 times (CSE 842)
- design of intel. sys. (AI+project;undergrad);developed and taught 3 times (CSE 440)
- Computer Vision (grad); 9 times (CSE 803)
- 3D computer vision topics (grad); 2 times (CSE 902)
- Analysis of Algorithms (grad); 1 time (CSE 830)
- Algs. & data struct.; 18 times; used C++ (CSE 232)
- Algorithms; 2 times (CSE 331)
- Discrete Structures; 3 times (CSE 260)

MSU Committee Service and Special Positions

- Involved with MSU CEE Concrete Canoe Team continuously since 1990, including boat design advice, paddling technique, and coaching at the regional contests and Nationals, when we qualified.
- With Curriculum Committee, developed CS Minor (2008)
- Organized and prepared 3 CSE sessions and taught 1 for WIMS 2008 Summer Program
- Grandparents University 2007: Can computers see?
- Grandparents University 2009: Problem-Solving with MATLAB.
- Implementation Committee for EGR 100: Freshmen Eng. I (2007-2008)
- Search Committee for CSE 101 Instructor (2 searches) (2008)
- Search Committee for CSE Assistant Prof. (2008-2009)
- CSE representative to College for ABET/CAC accreditation (2007)
- Hiring committee for Director of Diversity Programs Office (2007-2008)
- Acting CSE Dept. Chair (Sept. 2007)
- Cognitive Science Program Grad Studies Committee, Chair 2006, member 2007, 2008.
- Chair of (three) staff hiring committees (2005, 2006, 2009)
- CSE Associate Chair (Aug 2005 - Jun 2009)
- Academic Council (MSU) (Aug 2005 - Aug 2006)
- Special Task Force II on Administrator review (Dec. 2005 - Aug. 2006)
- Student ACM Chapter Co-Advisor 2003-2004.
- Local UPE Chapter advisor, Fall 2004 - present
- Advice and Paddle Coaching for MSU Concrete Canoe Team 1988-present.
- CSE Grievance Committee (Chair) 2003-2004.

- Acting Chair of CSE, 1 Jan 2000 - 1 Aug 2001 and August 2007.
- ad hoc tri-college committee on information technology programs
- Tenure and Promotion Committee, since full prof.
- CSE Dept. Curriculum Committee Chair 1998-99; 2003 to present
- Eng. College Curriculum Committee Chair 1999.
- Dean of Engineering Search Committee 1998-99.
- CSE Dept. Search Committee 1992-93; 1998-99; 2008-09.
- Director of Lab for Pattern Recognition and Image Processing 1984-85; 1995-96;1997-99.
- Grad Director of CPS Dept. 1990-94
- CPS Department Tenure and Promotion Committee Chair 1995-96 and 96-97
- Engineering Research Council 1986-88 and 1992-96 (Chair 1993-94)
- MSU Graduate Council 1994-1996
- MSU Academic Council 1993-1995
- CPS Dept. Grad Studies Committee, several years
